

SENATORIAL CANDIDATE QUESTIONAIRE

A. REAL ESTATE INDUSTRY RELATED ISSUES

1. Increase in Real Estate Tax Rate for Properties with Improvement valued at \$1 million or more. Public Law 35-1 was signed into law by the Governor on March 2, 2019 to correct an error in the previous law created by the 34th Legislature to make clear that the law imposes an additional 100% tax levy on Guam real property with property improvements valued at one million (\$1 million) or more. This additional tax levy has created a severe financial burden to a certain class of property owners and most especially to residential and commercial tenants whose rental spaces happen to be in buildings valued at \$1 million or more, being that the additional cost of the tax levy will most surely be passed on to the tenants. This tax levy places the financial burden on the backs of middle- and low-income wage earners and owners of small businesses.

<i>Do</i> у	ou support the repeal of t	this law?		
	Support	Oppose	Undecided	
Please l	Explain your choice:			
_				
_				
_				

2. Improving the Building Permit Process. Property owners seeking to construct improvements on their property as well as contractors engaged to construct such improvements are confronted by a building permit application and occupancy permit process that is rife with unreasonable and unresponsive review periods, potentially corrupt communication with individual agency review personnel, unreasonable, inconsistent and shifting permit requirements and standards of certain review agencies, and a frustrating linear review process.

What will you do to improve and expedite the building permit application and the occupancy permit issuance process?

Please 1	Explain:				

3. Housing Shortage. Guam is experiencing a severe housing shortage due to a variety of reasons. These include the rising cost of construction labor and materials, rising mortgage/construction loan interest rates, unresponsive, stifling and potentially corrupt build permit application process, increasing restrictive environmental regulations, and conditions placed on local housing development by competing and more lucrative military construction contracts, and H2 visa labor restrictions.

What legislative action will you pursue with commitment and purpose to address/resolve Guam's severe housing shortage?

Explain:			

4. Repeal of Business Privilege Tax (BPT)Rate Increase. In March 2018, Public Law 34-87 increased the BPT tax rate from 4% to 5%. The law stated that the increase was "temporary" and was necessary to combat the loss of revenue caused by Federal tax cuts, but with no sunset date to the increase specified. This BPT Tax increase has resulted in significant increases in construction labor and materials and generally adversely affects the entire business environment in Guam. Despite many proposals to repeal this increase considered by subsequent legislatures, private sector businesses effectively paralyzed by Covid 19 operation restrictions, and a change in President's political party, the rate remains at 5%.

_Support Oppose _Undecided Please Explain:

Do you support the repeal of the BPT Rate increase and return the rate to 4%?

B. GENERAL GOVERNMENT

1. Full-time or Part-Time Legislature. The Guam Legislature over the past many decades has been a "full-time" legislature. Some candidates aspire to a senatorial position as a career goal that pursues and emphasizes popularity rather than effectuating a smaller and more efficient and cost-effective government.

Will you support the creation, introduction and passage of a bill to change the operation of the Guam Legislature from full time to part time?

	Support	Oppose	Undecided	
Please	Explain your choice:			

2. Legislative Priorities. Whether you are an incumbent, a former legislator or a first-time candidate for Senator in the 37th Guam Legislature, what are the top two (2) legislative priorities you will pursue if elected? Please respond to this question under two conditions: (1) if you are in the majority or (2) if you are in the minority.

Please	Explain:				
	(1)	 	 	 	
	-				
	(2)

5. Political Status. The topic of Guam political status is in constant discussion and debate by our island community, i.e., (1) remain a U.S. Territory, (2) become a state or (3) seek independence. Holding a firm position on one of the above options would seem to influence your actions as a Senator.

What political status option draws your sup	pport?	
Remain a U.S. Territory	Statehood	Independence
Please Explain your choice:		

C. PUBLIC AND PERSONAL HEALTH AND SAFETY

1. **Continuation of the Governor's Covid-19 Pandemic Emergency Powers.** The Governor declared a state of emergency to deal with the Covid-19 pandemic in the spring of 2020. It is now the fall of 2022, and the state of emergency is still in effect but scheduled to expire October 5th. By law, the Guam Legislature has the authority to terminate or to extend the Governor's extensive emergency powers.

Discounting a year into the pandemic which most people acknowledge as the public health emergency period, are you in support of the Governor's continuing extension of emergency powers into October 2022?

	Support	Oppose	Undecided	
Please Expl	ain your choice:			

2. **New Public Hospital.** The Governor has determined that we need to construct a new hospital and that the site will be at former Eagles Football Field in Mangilao along Route 15. Since the Guam Legislature must eventually be involved in the development of a new hospital, your role as a Senator will be to decide your position in determining the location and the funding of a new hospital.

Do you believe Guam needs a new public hospital and, if yes, where do you think it should be located and how do you propose to fund the design and construction of the new facility?

Please	Explain:
3.	Drug Abuse. Drug abuse is rampant on our island and is no doubt a cause of criminal activity, acts of violence against the public, homelessness, family violence and gradual destruction of the family unit and businesses. As a Senator, you will be in a powerful position to affect public policy changes to prevent or at a minimum mitigate drug abuse and its impact on our community.
As	a legislator, what will you do to address the problem of drug abuse on our island?
Please	Explain:

4. 2nd **Amendment Support.** Home invasions and predatorial acts of violence against the community can succeed only if homeowners and individuals are defenseless. The 2nd Amendment to our U.S. Constitution gives the right to our people to keep and bear arms. Although Guam law has strict licensing requirements governing the exercise of this right, many of our citizens, having met those requirements, do own and bear firearms.

Do you support the right of a Guam citizen to protect one's home and property with a firearm?
